Name: Adam Elaoud
Team Number: 16
Team Members:
- Adam Elaoud
- Casey Harris
- Christian Yi

Are any team members performing above expectations? If so, why?

Yes, all team members are performing above expectations in communication. I've never had the privilege of working on a CS group project with as communicative and accessible teammates. At our current pace, I expect that we'll have the semester project completed well before the deadline.

Are any team members performing below expectations? If so, why?

No, all team members are performing at/above expectations.
